SUMMARY—Revises provisions governing state agencies, boards and commissions that regulate occupations and professions. (BDR 54-229)

FISCAL NOTE: Effect on Local Government: No.

Effect on the State: Yes.

AN ACT relating to regulatory bodies; authorizing the Governor to issue an executive order directing a regulatory body to expedite action on pending applications for licensure; requiring certain regulatory bodies to adopt regulations governing the issuance of a license by endorsement to a person who holds a comparable license issued by the District of Columbia or any state or territory of the United States and meets certain other requirements; prohibiting the appointment as a member of a regulatory body of a person who has served as a member for 12 years or more; prohibiting regulatory bodies from entering into an agreement for the payment of fees for legal services on a contingent basis; and providing other matters properly relating thereto.

Legislative Counsel’s Digest:

Existing law provides for the regulation of certain occupations and professions in this State. (Title 54 of NRS) The various state agencies, boards and commissions that are authorized to license and regulate particular occupations or professions are generally referred to as “regulatory bodies.” (NRS 622.060)

Section 2 of this bill provides that if the Governor determines that there are critical unmet needs with regard to the number of persons within this State who are engaged in an occupation or profession that is regulated by a regulatory body, the Governor may, by executive order, direct the regulatory body to take final action on all completed applications for licensure in its possession within the time specified by the executive order.

Section 3 of this bill requires a regulatory body that is not otherwise authorized or required by specific statute to issue a license to engage in an occupation or profession in this State to a person who has been issued a comparable license by another jurisdiction to adopt regulations providing for the issuance of a license by endorsement to engage in an occupation or profession in this State to a person who: (1) holds a corresponding valid and unrestricted license to engage in that occupation or profession in the District of Columbia or any state or territory of the United States; (2) possesses qualifications that are substantially similar to the qualifications required for issuance of a license to engage in that occupation or profession in this State; and (3) satisfies certain other requirements.

Section 4 of this bill establishes term limits for members of regulatory bodies. Specifically, **section 4** provides that a person may not be appointed as a member of a regulatory body if the person has served as a member of that regulatory body, or at the expiration of his or her current term if he or she is so serving will have served, 12 years or more at the time of his or her appointment.

Existing law establishes specific requirements that must be satisfied before certain state agencies or officials may enter into a contingent fee contract with an attorney or law firm. (NRS

228.111-228.1118) **Section 5** of this bill prohibits any regulatory body from entering into such a contract. **Section 8** of this bill makes a conforming change.

Existing law requires a regulatory body to exercise its authority over an occupation or profession for the protection and benefit of the public. (NRS 622.080) **Section 6** of this bill requires a regulatory body also to exercise its authority over the occupation or profession for the expansion of economic opportunity, promotion of competition and encouragement of innovation. **Section 6** also imposes certain limitations on the manner in which a regulatory body may exercise its authority over an occupation or profession.

Existing law requires each regulatory body to submit a quarterly report to the Director of the Legislative Counsel Bureau that includes certain information concerning the disciplinary actions taken and the number of licenses issued by the regulatory body during the immediately preceding calendar quarter. (NRS 622.100) **Section 7** of this bill requires the regulatory body also to include in the report: (1) the total number of applications for licensure received by the regulatory body; (2) the number of applications rejected by the regulatory body as incomplete; (3) the average number of days between the date of rejection of an application as incomplete and the resubmission by the applicant of a complete application; (4) a list of each reason given by the regulatory body for the denial of an application and the number of applications denied by the regulatory body for each such reason; and (5) the number of applications reviewed on an individual basis by the regulatory body or the executive head of the regulatory body.
