**RE: 200815 WUOM PR2 Act. Ltr.**

Dear President Davies:

At its 13-15 August 2020 meeting, the Accreditation Commission for Acupuncture and Oriental Medicine (ACAOM or Commission) reviewed the 1 June 2020 *Second Progress Report* from Wongu University of Oriental Medicine (WUOM or Institution) regarding findings of non-compliance from the most recent comprehensive review under applicable ACAOM accreditation standards. This report was required by ACAOM's Action Letter dated 12 September 2019.

#### **COMMISSION FINDINGS**

Based on its review of Wongu University of Oriental Medicine's accreditation record, the Commission determined that WUOM has resolved the following areas of non-compliance:

*Criterion 6.01: Systematic Evaluation* [formerly *Standard 7*] – now Compliant Requiring Further Development

*Criterion 6.03: Programmatic Review* [formerly *Criterion 7.1*] – now Compliant Requiring Further Development

The Commission acknowledges WUOM's efforts to develop a comprehensive assessment plan for evaluation and improvement of the program. However, as the plan is not fully implemented, the Commission requires the Institution to explicitly demonstrate that the plan results in effectively gathering data, evaluating the data, deriving action steps from data analysis, and evaluating the impact of actions made.

The Commission finds *criteria 6.01 and 6.03* compliant requiring further development and strongly encourages the institution to continue to develop their implementation of assessment and evaluation practices and demonstrate the use of data in programmatic improvement.

#### **COMMISSION ACTION**

Consistent with ACAOM's *Commission Actions Policy*, the Commission:

- accepts the Wongu University of Oriental Medicine's *Second Progress Report* as submitted.
- requires the institution to submit a **Third Progress Report** (Report) including a table of contents, supporting documentation and the associated fee to ACAOM by **1 June 2021**, documenting the Institution's progress in correcting the cited criteria requiring further development. This Report will be reviewed at the Commission's August 2021 meeting.
