Please read the following into the record as public comment:

Item 11 on the Agenda for tonight's meeting states that there will
be a "discussion by DAG about the finalized SB69 application
(For Discussion Only)." In review of the documents and exhibits
for this agenda, I note that the "finalized SB69 application" is not
attached. Therefore, it is impossible for the public to have any
ability to comment on the alleged "final" application. Further, I
have previously advised the Board of my concerns with and legal
objections to what has been stated to be the "final" application
without response from the Board or any indication that these
concerns have been considered. As there is no attachment
regarding this agenda item, I have no way of knowing what the
"final" application being reviewed consists of or whether my prior
concerns have been taken into consideration with respect to the
"final" application. I also note that the Board has never, and is not
scheduled to approve during tonight's meeting, the "final" SB 69
application and, therefore, there remains no currently-approved or
effective application for SB 69 applicants. However, on December
28, 2017, I submitted the information in the form requested by the
Executive Director for licensure by endorsement and have never
received any response to that application. Currently, therefore,
the Board remains in violation of SB 69.

As nothing is on the agenda for tonight that could result in any

change to the Board's current violations with respect to SB 69,
will not be in attendance but ask that this comment be read and
made part of the record.

Thank you,
Dr. Bart A. Chapman
