Dear President Tracey:

The Sunset Subcommittee of the Legislative Commission (*Nevada Revised Statutes* [NRS] 232B.210) has completed its work for the 2015–2016 Legislative Interim. Throughout this Interim, the Subcommittee considered several boards, commissions, and similar entities established by acts of the Nevada Legislature. The Subcommittee is charged with determining whether those entities should be continued, modified, consolidated with another agency, or terminated. At the completion of each interim, pursuant to statute, the Subcommittee reports its recommendations to the Legislative Commission.

At its meeting on December 15, 2015, the Subcommittee reviewed the State Board of Oriental Medicine (NRS 634A.030). At that time, the Subcommittee members raised questions regarding the number of applicants licensed over the past six years, as well as the process of reciprocity with other states. The members also discussed enrollment of students in programs at Wongu University of Oriental Medicine in Las Vegas and the projected number of graduates from that institution.

During the review and public comment, proposed Regulation LCB File NO. R072-14 was discussed. The regulation proposes to require a student to complete a degree of Doctor of Oriental Medicine or Doctor of Acupuncture and Oriental Medicine and 4000 hours of instruction. The proposed rule would also establish an accreditation committee, which would recommend to the Board the approval of schools or colleges of Oriental medicine and annual approval of curricula.

At its meeting on June 16, 2016, the Subcommittee voted to recommend certain statutory revisions for inclusion in legislation to be considered by the 79th Session of the

Maggie Tracey, O.M.D.

Nevada Legislature. These recommendation are available in the minutes of the June 16 meeting.

At that meeting, the members also voted to inform the Board that the Subcommittee recommends the Board withdraw the portions of LCB File No. R072-14 that impose the doctoral requirements. The Subcommittee will also inform the Legislative Commission of its opposition to those portions of the proposed regulation.

Thank you for the assistance provided by members of the staff of the State Board of Oriental Medicine as the Subcommittee conducted its reviews and completed its work. As always, please do not hesitate to contact me if the Subcommittee or I may be of assistance.

Sincerely,

Senator James A. Settelmeyer, Chair
Sunset Subcommittee of the
Legislative Commission

COMMITTEE MEMBERS PRESENT IN CARSON CITY:

Senator James A. Settlemeyer, Chair
Senator Donald G. Gustavson
William "Buzz" Harris
Teresa Rankin

COMMITTEE MEMBERS PRESENT IN LAS VEGAS:

Assemblyman Glenn E. Trowbridge, Vice Chair
Senator David R. Parks
Assemblywoman Irene Bustamante Adams
Assemblyman Chris Edwards
Carmen Amen

Ms. Stonefield clarified the term “internal review panel” suggests Board members and people internal to the Board and “independent review process” suggests people from outside.

MOTION AMENDED: Assemblywoman Bustamante Adams amended her motion to replace “internal review panel” with “independent review process regarding complaint investigation and resolution.” The motion passed unanimously.

O. Committee on Dental Hygiene (NRS 631.205)

Chair Settlemeyer provided background information regarding the history and makeup of the Committee (Agenda Item VI A-1).

MOTION: Vice Chair Trowbridge moved to continue the Committee on Dental Hygiene without modification. The motion was seconded by Senator Gustavson and passed. Assemblywoman Bustamante Adams was absent for the vote.

P. State Board of Oriental Medicine (NRS 634A.030)

(This agenda item was taken out of order.)

Chair Settlemeyer provided background information regarding the history and makeup of the State Board (Agenda Item VI A-1). He reminded the Subcommittee members that when they reviewed the State Board during the 2011–2012 Interim, they recommended continuation without modification. Chair Settlemeyer addressed licensing information and graduation rates (Agenda Item VI A-2). He recalled the 2015 Senate Committee on Commerce, Labor, and Energy and the Assembly Committee on Commerce and Labor addressed more individuals practicing Oriental medicine in the State. Chair Settlemeyer commented that according to Chris Bosse, Vice President of Government Relations, Renown Health, Nevada and Hawaii are the only two states that prohibit physicians trained in acupuncture from practicing acupuncture without an Oriental medicine license and is therefore requesting an exemption for physicians appropriately trained in all other states. He said there is a request from physical therapists to be exempt from Chapter 634A because they feel “dry needling” is different from acupuncture.

Senator Parks remarked that since physical therapy is governed under Chapter 640, today’s recommendations would not include physical therapists or other medical professionals who may use dry needling.

MOTION: Senator Parks moved to continue the State Board of Oriental Medicine with the following modifications: (1) physicians appropriately trained in acupuncture do not have to have an Oriental medicine license; (2) send a letter to the State Board of Oriental Medicine recommending that it withdraw the portion of LCB File No. R072-14 that imposes the doctorate requirement, and inform the Legislative Commission of the Subcommittee’s opposition to the proposed regulation; (3) amend NRS 634A to increase the number of members of the Board from the current five to seven and provide that one member of the

Board shall represent a school or college of Oriental medicine located in Nevada, the establishment and curriculum of which is approved by the Board pursuant to NRS 634A.090; (4) amend NRS 634A to provide that the members serve at the pleasure of the Governor, who may remove a member at will; (5) revise NRS 634A.200 to provide that the provisions of the chapter do not apply to physicians licensed under Chapter 630 (“Physicians, Physician Assistants, Medical Assistants, Perfusionists and Practitioners of Respiratory Care”) or Chapter 633 (“Osteopathic Medicine”) of NRS; and (6) require the State Board to submit reports of activities to the Sunset Subcommittee every six months until the 2019 Legislature convenes. Such reports will include minutes of meetings, the examination and licensing of applicants, approval of curricula of any school or college of Oriental medicine located in Nevada, oversight of practitioners, and any other issue as directed by the Sunset Subcommittee. The motion was seconded by Assemblywoman Bustamante Adams and passed unanimously.

Q. Public Utilities Commission of Nevada (NRS 703.020)

Chair Settlemeyer provided background information regarding the history and makeup of the Commission (Agenda Item VI A-1).

MOTION: Assemblyman Edwards moved to continue the Public Utilities Commission of Nevada without modification. The motion was seconded by Senator Parks and passed. Assemblywoman Bustamante Adams was absent for the vote.

R. Nevada Transportation Authority (NRS 232.510 and 706.1511), DBI

See the motion for the Taxicab Authority.

S. Taxicab Authority (NRS 232.510 and 706.8818), DBI

(This agenda item was taken out of order.)

Chair Settlemeyer said he would like to include a discussion of the Nevada Transportation Authority (NTA) at the same time. He suggested the two entities be combined and placed in their own department with oversight by one person who can be removed at the will of the Governor (Agenda Item VI A-1).

Ms. Rankin shared the history of the TA and cautioned the Subcommittee about the financial difficulties of transitioning from a division to a department.

Vice Chair Trowbridge acknowledged that new individuals hired by the TA are bringing new approaches to handling the issues. He suggested making a move now would be premature and supported leaving things the way they are—but with clear directions for expectations.

Dr. David Miller, M.D., L.Ac. is one of the only physicians in the U.S. dually board certified in Pediatrics and Traditional Chinese Medicine (including Chinese herbalism).

He is one of a growing number of health professionals seeing a need in medicine for more Holistic options. To help work toward this end, he has sought out medical systems that are inherently based on holistic approaches: Traditional Chinese Medicine, Reiki, and Flower Essences. Dr. Miller sees children and adults, but specializes in pediatrics and believes that children should have access to the same broad range of healthcare options as adults.

He provides options for parents seeking to integrate other sophisticated medical modalities with the allopathic care their children are already receiving from a primary care pediatrician, and for adults who wish to expand their own treatment options.

He also provides options for Western medical practitioners seeking to work collaboratively in order to expand the care their patients are receiving. Dr. Miller is particularly interested in chronic conditions such as asthma, headaches, chronic pain, Sickle Cell Disease, seizure disorders, attentional problems and autism.
