THE ADVANTAGE GROUP AN INVESTIGATIVE AND CONSULTING FIRM

PROVIDING YOU THE INVESTIGATIVE ADVANTAGE

The Advantage Group (TAG) is comprised of experienced individuals who are knowledgeable in their fields, inventive and committed to the task. This, combined with ethics and confidentiality, provides you with successful solutions when addressing the many critical issues facing individuals and the business community in which they work.

These professionals provide a wealth of combined experience, well in excess of 100 years. This experience was acquired as successful investigators and professionals with the FBI, Local Law Enforcement and the private sector.

TAG is a Nevada Corporation headquartered in Reno, Nevada with an additional office in Las Vegas, Nevada. The corporation was established in 1993 and has consistently provided clients with quality service and successful resolutions to a wide variety of issues, some simple and others complex. Clients from all walks of life, national and international corporations and law firms, law enforcement agencies and governmental entities have trusted us with their projects. Every client is important to us.

Our investigative and consulting services are reflective of the expertise available to you.

- Business and Government
- Gaming Industry
- General Investigative
- Litigation Support

By using current technology and computerized databases that contain information at a national and international level, we are able to make many inquiries in a short time. This, combined with TAG's association with a well-established international network of Special Agents of the Federal Bureau of Investigation, former state and local law enforcement officers, private investigators and other experienced professionals and sources, greatly enhances our ability to successfully meet our client's needs.

BUSINESS AND GOVERNMENT

Fortunately, our experience in the area of Business and Government has been wide and varied. We have provided investigative and consulting services for a broad scope of governmental (including federal, city, county and state law enforcement) and regulatory agencies. In the area of small to large business entities, we have provided successful assistance in both investigations and consulting. In addition, we have provided assistance in the area of public and private schools. Our experience has demonstrated the necessity to quickly identify the problem and formulate a strategy to address and / or remedy the situation, if requested. It also could allow the client to use the information obtained to make decisions for their companies or governmental entities. In this regard, the following are the services we provide:

- Employee related Backgrounds, both pre-employment and internal
- Due Diligence Investigations
- Crisis Management / Threat assessment
- Workplace Violence
- Fraud, Embezzlement & Theft Investigation
- Litigation Support

THE GAMING INDUSTRY

While the Gaming Industry is most certainly a business entity, the nature of the business and its requirements are distinctive and require a level of experience and understanding to perform the many tasks that are requested. Government licensing and regulatory agencies that control the gaming industry require a high level of inquiry, accuracy and integrity of their licensees. The licensees in return demand that same level for business and personal entities with which they do business. The Advantage Group has individuals knowledgeable in these requirements and the different compliance issues. As with all clients, we provide services with integrity, reliability and consistency to our gaming clients. The following are the services we offer:

- Due Diligence Investigations
- Pre-employment and Internal Investigations
- Fraud Investigations
- Liaison With Federal and State Regulatory Agencies
- Embezzlement Detection
- Electronic Surveillance / Counter Measures
- Crisis Management / Threat Assessment
- Workplace Violence
- Litigation Support

LITIGATION SUPPORT

Litigation support may be the most natural of services provided by The Advantage Group. Years of experience in investigating and preparing cases for litigation, working with government prosecutors, witnesses, attorneys and testifying in courts of many different jurisdictions has taught us how to best serve our clients. We continue to learn through our ongoing experiences and pass our knowledge and experience on to our clients. This knowledge and experience allow us to continue assisting clients in the following areas:

- Assessing the needs of the client
- Working with the client to plan the strategy of the case
- Conducting background investigations on potential witnesses
- Locating and interviewing witnesses
- Process Service
- Locating and analyzing records and documents as potential evidence
- Evidence location, management and relevant data entry / retrieval
- Civil Computer Forensics
- Electronic Discovery
- Asset Searches
- Location and Verification of Expert Witnesses

GENERAL INVESTIGATIVE

While much investigative work is confined to specialized areas, the diverse makeup and experience of The Advantage Group's personnel allows us to provide our clients with assistance to meet a wide variety of needs. Even if you don't find a specific reference here to your needs, contact us for input regarding your particular situation. Here are some of the areas in which we can assist you:

- Background investigations on family support personnel
- Inquiries into service providers
- Finding missing persons and heirs
- Identity theft inquiries and resolution
- Loss Prevention
- Due Diligence / prevent investment fraud

THE ADVANTAGE GROUP'S TEAM

VICTOR R. FREEMAN is a retired police officer having served 28 years with the Washington D. C. Metropolitan Police Department, Carson City Sheriff's Office, Nevada Highway Patrol and the Nevada Gaming Control Board. He also served 7 years on the Peace Officer's Standards and Training Committee for Nevada. After retiring in 1995, he worked for two major Nevada gaming machine manufacturers as the Assistant Regulatory Compliance Officer and as the Director of Regulatory Compliance. In these capacities, he conducted and / or directed due diligence, corporate security, internal affairs and other sensitive investigations. Mr. Freeman is a graduate of the FBI National Academy. He joined The Advantage Group in 2004.

DUANE R. ISENBERG is a retired Police Sergeant from the Reno Police Department and TMCC Police Department with twenty-five years of service. He has extensive experience as both an Investigator and Supervisor in narcotics, Special Weapons and Tactics (SWAT), homicide, sexual assault, robbery, burglary, criminal intelligence and white-collar crime. He has over twenty years of experience as a private investigator, including all types of criminal and civil litigation support.

RICHARD L. MARTINELLI is a retired Reno Police Officer with 30 years of service. During his tenure, he was assigned to Patrol, Investigations, Police Training and Research, Police Academy Staff, and Special Operations Units. He received his Bachelor of Science degree in Animal Science from California Polytechnic State University, San Luis Obispo, CA in 1979. Since joining The Advantage Group in 2012, Rick has provided litigation support involving civil and criminal defense cases. He has also been consulted in matters pertaining to home, business and personal security.

DONALD OBRITSCH retired in 2009 from the U.S. Postal Inspection Service after being domiciled in Salt Lake City, Los Angeles, Kansas City, and Las Vegas. During his career, he worked all types of crime including Identity Theft, Workers Compensation Fraud, Mail Fraud, Robbery and Burglary cases, Mail Bombs, Narcotics, Threats and Assaults, Employee Thefts and various other crimes. He received a Bachelor of Arts in Business Administration in 1985 from City University, Seattle, WA. He also has experience in Building Security, Public Information and Financial Investigations. Donald joined The Advantage Group in 2010. *(Las Vegas Office)*

TACO L. J. PRINS began his investigative career in 1993, soon after receiving his Bachelor of Arts degree in Political Science with a minor in Mathematics from Texas Tech University. He gained broad experience handling worker's compensation fraud, insurance fraud, personal injury defense and child custody litigation support while working at two corporate private investigations firms in Texas. Mr. Prins joined The Advantage Group in 1997, broadening his investigative experience to include gaming due diligence / compliance matters, pre/post employment background investigations, pre-transaction due diligence, computer related investigations, identity theft and all types of criminal and civil litigation support. In addition, he has extensive experience in open source and commercial database research.

RICK SAULNIER retired as a Commander from the Reno Police Department. He had direct supervision of the department SWAT team as well as EOD, Field Force and Gang Units. He had supervision over the North and Central Patrol forces, including 14 Lieutenants and 43 Sergeants. He received a Bachelor's Degree in Occupation Education from California State University, Long Beach as well as Management Certificates from Harvard's Kennedy School of Government and the University of Nevada Reno. He is a graduate of the F.B.I. National Academy at Quantico Virginia. Since joining The Advantage Group in 2006, Rick has worked numerous hours of surveillance and undercover investigations.

MICHAEL E. WILSON retired in 2011 after 35 years with the Federal Government, including 22 years with the U.S. Postal Inspectors. He has extensive experience as an investigator and supervisor in internal and external theft investigations, identity theft, robberies, burglaries, embezzlements, threats, assaults, worker's compensation fraud cases and mail bomb investigations. He also supervised an Organized Crime Drug Enforcement Task Force (OCDETF) investigation for over 9 years in California and Hawaii. Mr. Wilson also served on active duty with the U.S. Coast Guard and retired from the Coast Guard Reserve after 21 years. He joined The Advantage Group in 2012. (*Las Vegas Office*)

TAG's own staff of experienced investigators and our association with a well-established international network of Special Agents of the Federal Bureau of Investigation, former state and local law enforcement officers, private investigators and other experienced professionals and sources greatly enhances our ability to successfully meet our client's needs.

Course Title: Nutritional Solutions for a Pharmaceutical World

Dates: May 18-19, 2019

Location: Phoenix, AZ

Seminar time: Sat. 8:30am to 5:30pm, Sun. 8:30am-12:30pm

Presenter: Gerald Roliz, CNC, MBA

Course goals

The goal of this course is to provide attendees with knowledge and understanding of the significant role that evidence based whole food nutrition has to play in the prevention and treatment of a range of common conditions.

Learning objectives/learning outcomes

On completion of this course, attendees will:

- Have an understanding of the impact of pharmaceuticals & environmental toxins on liver & kidney health and how these factors exert their negative effects.
- Be able to conduct a thorough nutritional evaluation.
- Be proficient in the basic clinical application of a range of evidenced based whole food nutrition & western herbs for the prevention and treatment of GERD, Depression, Anxiety, Diabetes, Osteopenia, Hypothyroidism, Infertility and related issues

Description of content

The course is divided into three sections:

1. A Holistic Approach to conducting a Nutritional Evaluation
2. A Systematic Method to assessing short and long-term effects of commonly prescribed pharmaceutical medications
3. A Synergistic Approach to Health

Prior level of knowledge

Basic level of knowledge is required for effective participation

Teaching method

Seminar environment using PowerPoint with active audience participation

Hour-by-Hour course outline

Hour by Hour Outline

Hour

- 1 A Holistic Approach to conducting a Nutritional Evaluation**
 - Basic review of physiology & anatomy
 - Develop a coherent theory for assessing organ health & function
- 2 A Systematic Method to assessing short and long-term effects of commonly prescribed pharmaceutical medications**
 - Discuss the concepts of Pharmacology with a focus on Adverse Events, Drug to Drug interactions and withdrawal syndrome
 - Using the theory review key herbs and nutritionals to support proper Elimination, Metabolism, Excretion of ingested pharmaceuticals
 - Generating a methodology on how to differentiate between symptoms of nutrient deficiencies versus pharmaceutical side effects
- 3**
 - Using the theory review key herbs and nutritionals for supporting the prevention of liver and kidney pathophysiology with a focus on the clinical evidence supporting the use of Cruciferous Vegetables, radishes and glandular extracts
 - Discuss the clinical application of the key herbs and nutritionals and develop protocols
 - Discuss and review case histories to further support and reinforce the knowledge learned
- 4**
 - Review and discuss the basics of liver and kidney health, and the relevant issues

related to GERD, parasites, and digestive pathophysiology with a focus on restoring digestive function

- Using the theory review key herbs and nutritionals for supporting the prevention of digestive disorders with a focus on the clinical evidence supporting the use of plant/animal based enzymes, Milk Thistle, and glandular extracts

Lunch

5 **A Synergistic Approach to Health**

- Develop a coherent theory for both Depression, Anxiety, and Insomnia to build a holistic protocol.
- Discuss the clinical application of the key herbs and nutritionals and develop herbal protocols
- Discuss and review case histories to further support and reinforce the knowledge learned

- 6
- Develop a coherent theory for both Heart & Muscle pathophysiology to build a holistic protocol.
 - Using the theory review key herbs and nutritionals for supporting the prevention of digestive disorders with a focus on the clinical evidence supporting the use of minerals, B Complex vitamins, Hawthorn, and glandular extracts

- 6
- Review and discuss the relationships between the endocrine system and autonomic nervous system
 - Review and comment on clinical trial data supporting the key herbal and nutritional recommendations

- 7
- Develop a coherent theory for endocrine pathophysiology to build a holistic protocol.
 - Using the theory review key herbs and nutritionals for supporting the prevention of endocrine negative feedback loop disturbances and imbalances.

- 8
- Review and discuss the basics of thyroid gland health, and the relevant issues related to hypothyroid, hyperthyroid, and parathyroid pathophysiology with a focus on restoring endocrine function
 - Using an evidenced based approach review selected key nutritionals including, iodine, magnesium, Essential Fatty acids, Ashwaganda and thyroid extracts

- 9
- Review and discuss the basics of female endocrine health, and the relevant issues related to prostate pathophysiology, male infertility, and androgen hormones with a focus on restoring endocrine function
 - Using an evidenced based approach review selected key herbs and foods for managing male health and male endocrine pathophysiology.
 - Discuss the clinical application of the key herbs and nutritionals and develop herbal protocols

- 10
- Using an evidenced based approach review selected key herbs and foods for managing female health abnormalities, including irregular menstrual cycles
 - Using an evidenced based approach review selected key nutritionals including, selenium, magnesium, Essential Fatty acids, and glandular extracts

- 11
- Review and discuss the basics of female endocrine health, and the relevant issues related to hot flashes, ovarian cysts, and infertility pathophysiology with a focus on restoring endocrine function
 - Using the theory review key herbs and nutritionals for supporting the prevention of endocrine related disorders with a focus on the clinical evidence supporting the use of plant/animal based enzymes, Chaste Tree, White Peony, Licorice, and glandular extracts

- 12
- Discuss the clinical application of the key herbs and nutritionals and develop protocols.
 - Discuss and review case histories to further support and reinforce the knowledge learned.
 - Review the material covered during 2 days of learning

Re: Seminar attendance verifications

An attendance officer appointed by Life Chiropractic College West will monitor all seminar attendance.

The attendance monitor checks all attendees in at the beginning of each day, out and in at breaks, and out at the end of each day.

Florida DCs must show photo ID upon entry and exit of the seminar room.

Attendance verifications are issued to attendees following the program. The college is the custodian of record for the attendees' timecards.

If you have any questions about our procedures, please contact me.

SAMRA FACIAL ACUPUNCTURE

DATE: 3/1/29, 3/8, 3/15, 3/22

CREDITS: 20 CE UNIT

CLASS HOURS : 20 hours

TIME : 5 hours each day

FACULTY: Dr. Myung Hwa Chung

CONTACT: omdchung@hotmail.com

COURSE DESCRIPTION and Objectives:

Samra facial acupuncture stimulates acupoints on the facial muscle to tighten up the loose facial muscle and return a natural smooth line of the face. It performs without any operation or injection, acupuncture needle being the only tool used for this technique. There is no serious side effects other than little bruise or pain. It is good for tension headaches and temporomandibular joint problem and works for facial whitening, like lightening of dark circles, overall dark skin tones, or aging spots. Patients can go on their daily activities right after the procedure. The result of acupuncture last longer as well, long enough to be almost permanent. It also is good for facial care after cosmetic

sugery. REQUIRED TEXTS:

1. *The essence of Face.* Song Jeong Hwa2013, Shiwon pres co, Korea., ISBN 978-89-969313-8-6
2. *Facial Acupuncture for Charm and Elegance,* Song Jeong Hwa, Korean Medicine Facial Rejuvenation Society,
3. *Lecturer's Note*
