Presenter's biography:

Dr. Lawrence is a Certified Clinical Nutritionist, Master Herbalist, Certified Functional Medicine Practitioner®, Doctor of Naturopathy, Doctor of Naturopathic Medicine, has a PhD in Natural Medicine, and is a Diplomate of the American Clinical Board of Nutrition. She is a member of the exam committee for the American Clinical Board of Nutrition. She has several years' experience with whole food nutrition, herbal nutrition, saliva testing, functional blood work, hormone testing and hair analysis. She specializes in endocrine disorders and digestive issues. She co-manages patients with several practitioners. Her functional medicine practice is in Toccoa, Georgia with her husband, Philip who is a chiropractor. Her passion is teaching and training other practitioners, and she brings education, information, and entertainment together in a unique style. She has been trained in the ReCODE protocol by Dr. Dale Bredesen that wrote "The End of Alzheimer's" and also runs genetic reports on patients. She also assists patients with immune challenges through their treatments.

Professional History

Lawrence Health & Wellness, 2013-present

Clinic is shared with Dr. Philip M. Lawrence, her chiropractor husband, in Toccoa, Georgia where she sees patients for nutritional consulting and testing. She speaks locally and out of state when she has the opportunity to inform the public about making better health decisions. Has been a recurring guest on the radio shows "Health Matters" with Dr. Nelson Bulmash and "Building a Better Brain" with Dr. Charles Krieger.

Radio Show "To Your Health" 2017

Six month weekly 30-minute program aired to discuss and inform the public about such subjects as digestion, cardiovascular issues, stress, hormones, thyroid, food choices, immune system, cholesterol facts, artificial sweeteners, allergies, etc.

Brain/Cognitive Assessment

Course Objectives

The American Autoimmune Association (AARDA) list over 100 diseases. The latest statistics show Autoimmune disease impacts 47 million Americans most believe this is a conservative number. Women are twice as likely to have an Autoimmune disease as men.

Jean will discuss:

- Prevalence of autoimmune disease who it affects most, and the risk factors.
- Questions to ask patients to identify possible undiagnosed autoimmunity
- Nutritional deficiencies in autoimmune disease
- Tests to see how hormones affect autoimmunity
- Tests to see how fatty acids and infections affect autoimmunity
- How to assess patients with questionnaires and testing; nutritional intervention

Hour by Hour Breakdown for *A Functional Approach to Autoimmune Disease*

Jean K. Lawrence, CCN, MH, CFMP, ND, NMD, PhD, DACBN

January 29th – 30th 2022

Hour 1: statistics and prevalence of autoimmune disease and who it affects most

Hour 2: risk factors for autoimmune disease

Hour 3: questions to ask patients to identify possible undiagnosed autoimmunity

Hour 4: nutritional deficiencies in autoimmune disease

Hour 5: bodily systems affected by autoimmunity

Hour 6: tests to see how hormones affect autoimmunity

Hour 7: tests to see how fatty acids and infections affect autoimmunity

Hour 8: how to assess patients with questionnaires and testing; nutritional intervention
