Dear Podiatry Board,

We were recently notified about your Board's Minutes dated 8/7/2023 wherein podiatrists are allowed to perform acupuncture in Nevada. Our concern is that there is no educational, training, and/or even minimal qualifications mentioned in the Minutes. As you are aware, our Board is tasked with ensuring public safety regarding the practice of acupuncture and has high educational and safety standards for our licensees.

Can you please advise what educational, training, and/or safety standards are required from your licensees who are practicing acupuncture?

If you have any questions, please do not hesitate to contact us.
